

Handwriting Plus

Handwriting Plus provides intervention and extra support to specific pupils in Years 7, 8 and 9. Handwriting Plus takes place during morning registration every Monday for Year 7 pupils and every Friday for Year 8 and 9 pupils who have been identified as struggling with basic handwriting skills.

Our aim is to work with the selection of pupils to improve their handwriting skills. Each term we set the pupils individual targets, for example, letter formation, a certain letter the pupil may find difficult or to work on the sizing of letters. We not only work on handwriting itself but also on the pupils' posture, pen grip, pen pressure, paper placement etc. in order to improve their skills.

Throughout the year we continuously assess each pupil's progress by checking their work in their handwriting booklets and exercise books, whilst following our Handwriting checklist.
