Exam Leave Planner 2018

Year 11 exam leave begins at 3:20 pm on Friday the 11th of May. From the 14th May to the 24th May lessons continue as normal. After half term and the last Friday of this half term (25th May), there are revision lessons planned for the subjects with exams towards the end of the exam season. This planner outlines the revision lessons and exams which are taking place after half term.

You should always check with your Individual Candidate Timetable which you receive at the beginning of May, as this gives the times, rooms and seat number for your personal exams. Language orals and other practicals are not shown, as dates vary for different people.

Registration After Half Term

If you have an exam in the morning, you will be registered in the exam. If you don't have an exam in the morning, please register in the Junior Hall.

Understanding this Planner

Each day has a row for each of the five periods.

For each period, the first column shows what revision sessions are available, which staff will be leading them, and which rooms they are in. For Science revision classes you always go to New Close (NC) and then staff will direct you to appropriate rooms. For Maths you meet staff in the Junior Hall (JH) apart from the odd occasion when you go to your normal timetabled lesson. If there are alternative sessions, you may choose which subject is most appropriate for you.

The second column shows the exams that run during the day.

You must either be in an exam, or attend a revision session. When exams finish part-way through a lesson, you should go to one of the revision sessions. The only exception is the occasional afternoon exam when you should go to the Main Hall when the exam has finished. This is indicated in the revision planner.

Planning Your Revision

Please highlight the revision sessions you would like to attend in this planner. You should bring this planner with you every day after half term.

	Revision	Exams
	Modern History J20 L19 French MFB L1 Economics JH L1 Chemistry (120) VC L7 Maths JMS & DC 20	Applied IT: How to go to the IT Computing: Computer components Spanish: Listening/Reading/Writing
